SUMMARY

I always wanted to understand why people ask data structures and algorithms in a web development interview. I figured then -

I was just a developer but now I strive to be an engineer.

MOST PROUD OF

⚛️ **Tryst with React**
Learnt and developed the front-end at Healthi from scratch on my own.

🎮 **Love for gaming**
- Won a counter-strike tournament at college
- Developed a platform for gamers of Rust to play and buy within the game

</> **Giving back to the community**
Helped people at Stack Overflow by guiding them to their solutions. My reputation stands at about 8000.

TECHNOLOGIES

PASSIONS

</> **Competitive coding**

🏊 **Swimming**
Because you can't flirt with the water, you have to marry it

🎮 **Gaming**
I play CSGO and PUBG when I am not coding
